

ProjectOR

Product that help build relations

Problem Statement

Creators

Many startup ideas never get off the ground because the creators lack of the team to build them.

Developers

Skilled developers often struggle to find projects to build their portfolio or contribute to.

Ecosystem

When a startup fails, the lessons learned from its mistakes are lost forever, leading others to repeat them.

Solution - ProjectOR

A Collaborative Space

We provide the tools and environment for teams to collaborate together .

Startup graveyard

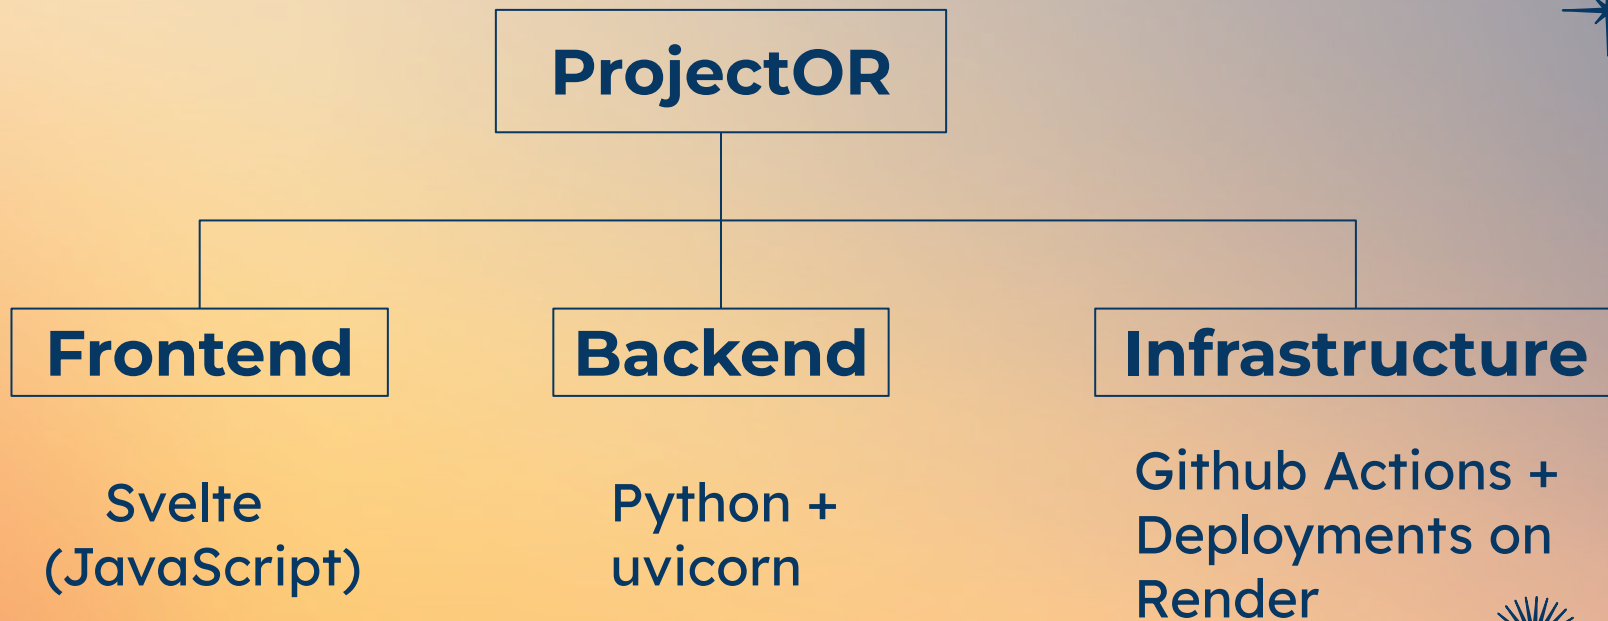

Our unique 'startup graveyard' turns failures into lessons for future projects.

A Connecting Hub

We help founders and developers to find teams to work on.

Technology Stack

Demo

Challenges Faced & Lessons Learned

We have faced both technical challenges, like configuring main page layouts, fixing authorization and role bugs and proper configuration of Github Actions. Also collecting feedback was complicated part.

We have learned, that fetching feedback before building product is crucial.

Future work

AI-Powered Matching

We plan to use machine learning to suggest the best projects.

Reputation System

Also we plan to implement ratings and reviews for both projects and team members.

Our team

Nikita Timofeev

Technical lead,
frontend
developer,
created whole UI

Kirill Karsakov

Product
manager,
provided
customer
communication

Almaz Andukov

Backend
developer,
created role
model

Timur Nabiullin

DevOps, provided
cicd and
deployment
infrastructure
